the Stingaree

Mrs. Ballard
I have enjoyed your class very much this year. The only thing that I did not enjoy was that nice make-up test you gave me. Good luck in your next teaching job.

Roy Crum

Mrs. Ballard,
I have really enjoyed Biology this year. I didn't think I would like it but I really did.

Jane Sosnowy

To a real swell teacher
Dickie Newman

Dear Mrs. Ballard,
I think you're a wonderful teacher (& person) and I've enjoyed having you as a teacher.
Christine Klawiszka

Dear Mrs. Ballard,
I have enjoyed having you for a teacher this year. May all the happiness in the world come your way.
Lynne Rudloff

Dear Mrs. Ballard,
Best of luck to my favorite teacher. I hope you have the best life has to offer.
Love
Jack [illegible]

Dear Mrs. Ballard,
I've really enjoyed having you this year.
Good luck

I enjoyed
being with you
all year,
Tommy Thompson

It has been
wonderful being in
your class. Best
wishes and Good luck
next year.
Aaron Beck

Dear Mrs. Ballard,
You are my favorite
teacher, even though
I didn't do so good
in your class. It
wasn't your fault.
Sylvia

THE

YEARBOOK STAFF

PROUDLY PRESENTS THE

STINGAREE OF 1960

Foreword

The year 1960 is thought of by some people as a stepping stone to greater heights of knowledge. To others, 1960 is a stopping point of their formal education. But to everyone, there will always be memories of this year, 1959 - 1960

We, the annual staff, present the 1960 Stingaree to the students and faculty of Texas City High School. We hope that we have succeeded in giving you something you will treasure and keep always. In the future, when you look back through this annual, it is our desire that you remember classmates, class activities and relive once more the happiness of these, your high school years.

Where Creative Chemistry Works Wonders for You

With docking facilities on Galveston Bay and ready access to the Gulf Coast's oil and gas reserves, Monsanto's Texas City plant is the link between the petroleum and plastics industries. The highly integrated petrochemical plant covers 135 acres and employes 1,800 persons. Its principal products, based on ethylene and acetylene, are styrene, vinyl chloride, acrylonitrile, polyethylene and methanol. These materials are used by other plants to produce thousands of end products in the plastics, synthetic rubber and fiber industries.

Sideburns, Stingarees, and other Symbols

Elvis Presley has his sideburns (at least he did before the Army snipped them). Texas City High School has its Stingarees. And American Oil has its torch and oval.

It would take some doing to round up three more diversified objects. Yet all three have one thing in common. They're all symbols.

To quote from that cool cat, Noah Webster: "Symbol, n. That which suggests something else by reason of relationship, association, convention, etc.; esp., a visible sign of something invisible, as an idea, a quality."

Thus, sideburns suggest Elvis Presley, who is associated with a particular type of music.

The stingaree symbol brings to mind a fine educational institution with its group of live-wire students and championship football team.

And, finally, the torch and oval of Americal Oil suggests quality products and good service to the public. Not only suggests but guarantees.

To us employees at American Oil, the torch and oval emblem has additional meaning. To us, it not only stands for the quality products we're proud to produce, but for pleasant working conditions with the best of equipment, under enlightened management.

Dear Mrs. Ballard,

I have really enjoyed being in your class this year. You made Biology 100% better than I thought it would be. May you have good luck. Don't have time to write much but you will be hearing from me.
